

## SKIN TURN OVER MACHINE LANA RFW-2RB

The LANA RFW is perfectly suited for turning closed wild furs like mink and musquash from the leather side to the hair side and vice versa during the tanning process.

Basically, the machine works with a vacuum pump and is equipped with an air filter system. Very easy to work with.  
Allows high piece numbers.

LANA RFW is integrated in a stable working table.

### **Technical data:**

380 V;

max. power: 1,5 kW

weight: approx. 80 kgs
